Stellar Strikers vs Game changers

Saturday 24 October 2026, 2:30 PM. S A R Cricket Ground 1, Hyderabad. 20 overs, leather ball. Official: Karthik K.

Summary

1. Game changers lose more than they win: 17-33 in 50 leather games. They chase badly (8-18). They bat first a little better (9-15).
2. Their batting has three engines: **Lalith Reddy** (787 runs, SR 169), **Sai Praneeth** (611 runs, SR 157, 10,947 career runs) and **Sagar Sadananda** (741 runs, avg 46). Everyone else strikes below 120.
3. Their middle overs are slow: 7.69 an over, a wicket every 17 balls. That is where Sandeep Kanchi, Trigun and Dwijesh bowl.
4. Their bowling leaks everywhere: 8.61 / 8.59 / 8.65 an over by phase. Only Mukesh P (econ 6.1) and Krishna Teja (powerplay econ 7.6) hold a line. Both miss games.
5. Wides decide club games. We bowl 15.4 wides a game. They bowl 12.7. Jasty Saran, Dwijesh and Preetham are the main sources.
6. Toss: **bowl first**. We chase at 21-19 and bat first at 7-8. They chase at 8-18. Our death bowling is our weakest phase (9.59 an over), so do not defend a total.

Phase plans

Bowling · powerplay (overs 1-6)

Saharsh overs 1, 3, 5. Balu overs 2, 4, 6. Full and straight at Praneeth: he is bowled, LBW or c&b in half his dismissals. Deep mid-wicket, deep backward square and wide long-on back for him from ball 1. Dot balls at Saibabu: he strikes at 106 in the powerplay. Mid-off and short third man stay in as catchers. Target: 2 wickets, under 50.

Bowling · middle (overs 7-15)

Spin and cutters. Sandeep Kanchi 4 overs (career 321 wickets at 7.7) and Trigun 3 overs (middle econ 7.8, 6 stumpings). Their 3-4 (madhu kolusu, Sudarshan) strike at 82 to 108. Keep the infield up and deny singles. Lalith and Sagar are the targets: bowl at the stumps, both are bowled most often. Dwijesh 2-3 overs of cutters at the bowled-prone lower order. No wides.

Bowling · death (overs 16-20)

They lose a wicket every 11.6 balls here, but Lalith (SR 189) and Mahesh (SR 165) hit if they are in. Saharsh 2 overs (death econ 7.0). Jasty Saran 2 overs (16 death wickets) if his line holds. Balu stays out of 17-20 (econ 10.0). Yorkers at Mahesh. Deep backward square and fine leg back for Karra Mohan and Sura.

Batting · powerplay

Respect Krishna Teja (powerplay econ 7.6) and Sura (8.3) if they play. Attack Gadde (10.6), Uma Vajrala (10.0) and Pavan Kumar Raju. Nikhil Kallakuri at 3: he has one powerplay dismissal in 103 balls. Preetham is out every 18 powerplay balls: he plays the anchor, not the hitter. Target 50 for 1.

Batting · middle

Rotate against Mukesh P (econ 6.0) and Mahesh Reddy (8.0). Attack Raghava Reddy B (econ 9.0, a wide an over) and Pavan Kumar Raju (9.6): both drop short, pull and sweep them. Sandeep Kanchi at 4 and Trigun at 5: both score best after the powerplay.

Batting · death

Their death bowling concedes 8.65 an over, but Mahesh Reddy (6.1) and Sura (7.7) are good here and Raghava takes wickets. Run hard against those three; hit Gadde (10.4) and Pavan (9.4). We lose a wicket every 10.1 balls at the death. Keep 5 wickets for the last 5 overs. Saharsh and Jasty Saran are the hitters (death SR 144 and 137).

Career lines fill the gaps for Sandeep Kanchi and Praneeth. Bowling styles for our bowlers come from the captain, not from CricHeroes (its defaults are unreliable). Lengths are inferred from where boundaries go. Toss advice rests on 50 and 55 games.

Data: every leather-ball match on CricHeroes for both teams. Game changers: 50 matches, 24 Aug 2025 to 10 Oct 2026. Stellar Strikers: 55 matches, 22 Jun 2024 to 17 Oct 2026. Ball-by-ball commentary for all 105 matches (26,849 balls). 102 of 105 innings pairs match the official totals; 3 innings differ by 1 to 15 runs. Career lines come from each player's CricHeroes profile, filtered to leather ball. Scorers log shot direction on some balls only (mostly boundaries). Wagon wheels show the share of those directed runs. CricHeroes does not log delivery length. Sources: cricheroes.com team 8201162, team 7307175, tournament 2234177. Generated 24 Oct 2026.
